

Doing The Groundwork For Over 40 years

Since 1976, Soil Engineers Ltd. (formerly known as Soil-Eng Limited) has earned a solid reputation for helping clients across Ontario build with confidence. Soil Engineers Ltd. primarily performs geotechnical site investigations and engineering studies for private sector and government projects. The expertise of our staff plays an integral role in the development and construction of major infrastructures and industrial, commercial, institutional, and residential sites and communities. Our expertise also includes environmental sciences, building sciences and project management, and hydrogeological study. Our consulting role is complimented by our extensive material inspection and testing services for soil, concrete, asphalt, roofing, structural steel, fireproofing and more. In addition, our work is backed by our laboratory services.

Environmental Consulting

- Air Quality Monitoring
- Asbestos Abatement Inspections
- Designated Substance Surveys
- Due Diligence Screening Reports
- Mould Surveys and Abatement
- Phase One and Phase Two Environmental Site Assessments
- Site Decommissioning and Remediation
- Soil Vapour Intrusion Testing
- Storm Water Management Pond Monitoring
- Underground Storage Tank Decommissioning

Geotechnical and Material Consulting

- Concrete Floor Slabs
- Foundation Engineering
- Geotechnical and Material Analysis
- Pavement Analysis and Design
- Retaining Walls
- Slope Stability Study
- Subsurface Investigation

Hydrogeological Consulting

- Baseline Hydrogeologic Assessment
- Dewatering and Aquifer Depressurization Studies; Compliance Monitoring
- Groundwater Monitoring Wells
- Infiltration and Water Balance Studies
- Landfill Compliance Monitoring and Reporting
- Nitrate Loading Studies for Sewage Works and Septic Systems
- Permit To Take Water
- Stormwater Management and Low Impact Development Assessment

Building Inspections

- Building Envelope (Air/Vapour Barrier, EIFS, Insulation)
- Fireproofing and Fire Stopping
- Pre-Cast Concrete
- Reinforcing Bar
- Roofing
- Structural Steel and Welding Inspection
- Thermography
- Pre-Construction Survey
- Vibration Monitoring
- Waterproofing and Dampproofing
- Tarion Bulletin 19

HEAD OFFICE

90 West Beaver Creek Road, Suite 100
Richmond Hill, Ontario L4B 1E7
Tel: (416) 754-8515, Fax: (905) 881-8335
info@soilengineersltd.com

BARRIE OFFICE

40 Bell Farm Road, Unit 6
Barrie, Ontario L4M 5L3
Tel: (705) 721-7863, Fax: (705) 721-7864
