

THURBER ENGINEERING LTD.

Thurber Engineering Ltd. is a Canadian consulting firm wholly-owned by senior practicing professionals. Since its inception in 1957, Thurber has grown to employ over 250 engineers, geoscientists and technologists in ten offices across Canada, providing a variety of Geotechnical, Geo-Environmental and Construction Materials Engineering and Testing Services.

Our teams are well supported by advanced laboratory facilities, specialized field testing equipment, innovative field instrumentation, and state-of-the-art numerical modelling software. We strive to provide practical solutions to technical problems, and work closely with our clients through to project completion.

Thurber's recent projects have included new major highways in Alberta, British Columbia, Ontario and New Brunswick, signature facilities such as the Waltherdale Bridge in Edmonton, Glacier Skywalk in Jasper and Airport Runway Tunnel in Calgary. We have been involved in a variety of geo-environmental projects ranging from soil and groundwater contamination assessments and remediation management to hydrogeology and groundwater supply studies. We are recognized as a leading consultant in the Oil Sands industry, and are currently working on a variety of industrial plants, pipelines and tailings dam projects.

Our areas of expertise include:

- Soils and Rock Engineering
- Foundation Engineering
- Slope Stability and Retaining Structures
- Geohazards and Risk Assessment
- Earthworks Design and Construction
- Water Retention and Tailings Dams
- Tunneling and Trenchless Technology
- Geotechnical Instrumentation
- Hydrogeology and Groundwater Supply
- Municipal and Industrial Landfills
- Asphalt and Concrete Pavement Evaluations and Designs
- Asphalt and Concrete, Field and Laboratory Testing
- Evaluation and Testing of Asphalt and Concrete Aggregates.

At Thurber, we are big enough to provide opportunities for professional growth, but small enough to maintain a friendly and personal work atmosphere. We strive to provide a corporate culture that supports creativity, diversity, and fairness.

After about 60 years in business, we still look forward every day to doing the work we are passionate about.
