Intertek Commercial & Electrical is a division of Intertek Group plc (LSE: ITRK), a global leader in testing, inspection and certification services, operating 1,000 laboratories in 110 countries throughout the world. The Commercial & Electrical division of Intertek provides access to global markets through its local services, which include product safety testing and certification, EMC testing and performance testing for customers in such industries as wireless technology, security, appliances, HVAC, cables and wiring accessories, industrial machinery, life safety, medical devices, telecommunications, lighting, automotive, semiconductor, building products and electronics.

In Canada, Intertek has served electrical and building products manufacturers for more than 100 years, providing its well known and accepted ETL, The Quality & Performance Mark, and WH certification marks. Intertek Testing Services NA Ltd. is accredited by the Standards Council of Canada as a Testing Laboratory, a product Certification Body and a management system Certification Body. Services offered and products tested by Intertek include:

**Building Materials:** Testing of glazing, windows, curtain walls, roofing, doors, construction products, and builder's hardware.

**Electronic and Electrical Testing and Certification:** Medical devices, wiring, industrial and environmental equipment, and consumer and commercial products.

**Electromagnetic Compatibility (EMC) Testing**

**Fire Testing and Certification:** Building products, materials and assemblies for flammability and fire resistance.

**Gas, Oil, Propane and Solid Fuel Burning Equipment Testing and Certification:** Appliances, accessories and venting systems.

**Inspection:** Visual examination of fabrication of pressure vessels, piping, tanks and mechanical/electrical equipment.

**Manufactured Wood Products Testing and Certification:** Shakes and shingles, glued-laminated timber, preservative and fire retardant pressure treated wood products, construction sheathing wood panels.

**Physical Testing:** Tensile, bend, compression and load testing. Thermal resistance testing of composite assemblies.

**Plumbing Testing and Certification:** Testing of plumbing fixtures and fittings; IAPMO certification, water efficiency.

**Product Evaluation:** By industry, manufacturer, or retailer specifications. Evaluation of consumer products for comparative performance and conformance to standards and specifications.

**Quality System Registration:** Registration to numerous standards including ISO 9000, QS 9000 and ISO 14000.
