

COMPLIANCE TESTING SOLUTIONS FOR GLOBAL MARKET

ULTRATECH LABS INC.

3000 Bristol Circle, Oakville, ON, L6H 6G4

Phone: 905-829-1570 www.ultratech-labs.com

Incorporated 27 years ago in 1989, Ultratech is one of the most experienced and largest EMC, EMI, RF Wireless test facility in Canada.

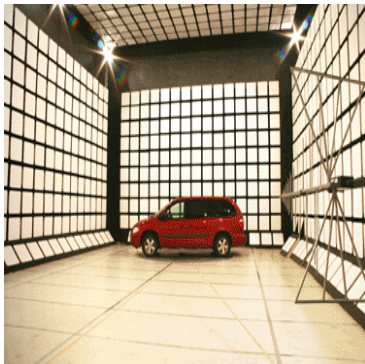

As an NVLAP and ANAB 17025 accredited test facility and an ANSI/IEEE ISO Guide 65 certifier, Ultratech Engineers follow the demanding Quality System in place for international accreditation for test laboratories.

Ultratech's role as the sole Canadian TCB certifier provides access and expertise to the FCC and Industry Canada regulations and procedures, and allows smooth liaison with the various government agencies.

Our certification and testing capabilities include consultations, product reviews and modification services during the development phase.

Services provided in areas of FCC, ICAN, FDA, VCCI, KCC, BSMI, EMI, EMC, Radio, SAR, Military, Airborne, Automotive, Safety and Telecom.

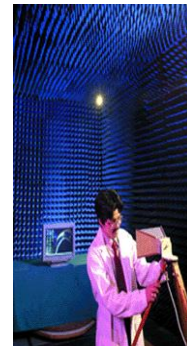

Partnership with UL & QPS to help manufacturers achieved the conformity of North America Regulatory Requirements, the mandatory European CE Declaration as well as CB scheme for global market.
