DST Consulting Engineers Inc. is a firm of engineers, scientists and contractors with offices across Canada. Established in 1971, DST specializes in construction materials services, geotechnical engineering and environmental services.

DST maintains CCIL Type A, B, C, D and E certified laboratories for asphalt and aggregate quality assurance, and quality control testing. Our asphalt laboratory is capable of completing and verifying both Marshall and Superpave mix designs. DST also has CSA certified testing and laboratories and technicians to complete concrete field/laboratory testing and mix designs, as well as RMCAO certified engineers to complete concrete plant certifications. DST's field inspection services include compaction, aggregates, concrete, structural and reinforcing steel, wall and roof membranes, fireproofing and masonry.

DST's Consulting Services Include:

- Pavement Design and Evaluation
- Geotechnical Services for Foundations
- Aggregate Source Investigations/Permitting
- Indoor Air Quality Services
- Sustainable Construction Services
- Demolition Design
- Blast Monitoring and Design
- Environmental Studies
- Hydrogeological Investigations
- Environmental Site Assessments

DST's contracting Services Include:

- Vertical Drilling
- Environmental Site Remediation
- Ground Stabilization
(drilled anchors, micropilers, soil nail and root technology - SNART)
